Old Business:

New Business:
Clerk Jamie looked up if there were any requirements from the State of Washington that the town had to follow to appoint a code enforcement officer. There is none, council can appoint one at their own discretion. Council member Jason will volunteer to be the code enforcement officer but does not want to do it long term. Jason stated it would be nice if another council member volunteered to do it as well. Council member Adrian volunteered to do it as well. Jason will be code enforcement officer until the end of the year and then Adrian will take over in January. Mayor Gamez made sure that they know to act only as code enforcers when they are doing it and not as a council member to keep the two positions separate. The code enforcer can use their own discretion on whether to issue citations or not based on the situation and make sure and provide copies of the ordinance in question when a violation occurs.

Maintenance Comments:
Lavon stated that there was another leak in town. Jesse with Palouse Hills Excavators came and helped fix the leak. Rudy asked where the leak was in town, Lavon said it was over by Garfield Farmington Road. Now that it has dried out Lavon went back and leveled the road back out.

Ben Smith assisted Lavon with fixing the security light in the park.

Council Comments:
Lavon stated that the levy is coming up in August. The ballots go out to the community in July. If council wants to talk to the community about the levy should start doing that soon. Jason stated that he has talked to a few people in town. Lavon thinks that door hangers with information might be a good idea and all of council agreed that door hangers would be helpful for the community.
